Evidence

```

10  /**
11   *
12   * @author Roberto Bedon, BCCO-ESPE, BettaCodere
13   */
14  public class Books {
15
16      public static void main(String[] args) {
17          System.out.println("This is the system for book");
18          ArrayList<Book> books;
19          books = new ArrayList<>();
20          int author;
21          int editorial;
22          int book;
23          int title;
24
25          for(int s=0; s<5; s++) {
26              books.add(new Book("Editorial", "2021", "title", "Author"));
27          }
28      }
29  }

```

Output

```
